PUBLISHED EVERY DAY IN THE YEAR.

[illegible]

TUESDAY, OCTOBER 12, 1886.

Today is the only day of registration this year. No one can vote who is not properly registered.

Governor Hoyt has been selected to represent the Park group of the Congregation of Methodists south of Liberty.

Democratic Postmasters yesterday resigned at the White House like Justices of the United States Supreme Court.

Democratic Governors is expected to be here in Washington tomorrow. His mansion and his office in the Treasury Department are rightly being put in condition for his occupation.

Grandmother Winans will be found the further results of Tom Traverse's investigations into the misuse to which practical politicians under the provisions of the Local Option law provide in the 100 counties in Illinois.

Democratic detectives have arrested "Bobby" Gibson, a notorious burglar, who is said to have planned and been the chief assassin of the Minneapolis Post-Office robbery, whereby the government suffered about $75,000 worth of stamps.

In the report of the Department of Agriculture it is estimated that the wheat yield in the United States for the year 1886 will amount that of 1885 by 100,000,000 bushels. The total may be estimated at over 500,000,000 bushels, and the total corn crop at 1,600,000,000 bushels.

Some more spread at the Treasury Department in Washington yesterday for worthy work for the executive in Baltimore. Even the latest election to the lottery of this assistant to one of the representatives made by the authorities of Baltimore that another shortsighted bet have proven to the dollar from experience.

The governors of Alabama, Indiana, Kentucky, and various counties elsewhere that let in a thorough investigation of the average per centage in the various departments of the Dutch Office. In almost every case the results have been found in the defective work of the officers who make the examination, because the trade and old plan in the former case, the average towards the holdings which contract the actual matter into the main source in the assets.

Boston was in good humor, and the returns were most satisfactory. Barring the mere letter, Democratic election have gone. The New York stock market was moderately active, with a declining tendency. The Chicago grain markets were again weak on the fact of large supplies, while provisions were strengthened by less than previous may be actively carried by the drive at the Stock Yards. There was a weakening tone of long wheat and corn as well all through the week. On Saturday with Saturday, the main attraction to push wheat to make higher, and most corn, oats unchanged, rye to next lower, and barley to more lower, and November 1/2 more lower.

Chicago advances continued last Saturday evening 2,000,000 bushels of wheat, 2,700,000 bushels of corn, 1,100,000 bushels of oats, 200,000 bushels of rye, and 110,000 bushels of barley; total, 10,000,000 bushels of all kinds of grain, against 11,000,000 bushels a year ago. For the seven days the Secretary of the Chicago Board of Trade makes the visible supply of grain in the United States and Canada as 60,707,000 bushels of wheat, 31,677,000 bushels of corn, 4,000,000 bushels of oats, 500,000 bushels of rye, and 1,000,000 bushels of barley. These figures are larger than the corresponding week a week ago by 1,000,000 to wheat and 100,000 to corn. The visible supply of wheat for the corresponding week a year ago footed 1,070,000 bushels.

The Democratic county ticket signed by Hancock when a measure of the time has said for a student and two accounts of barley for a student both a gambler in our profession students sort. Yesterday they hundreds of [illegible] and three hundreds of the student and grade of eyes sent to this conduct for this time a letter to each man, while others went down to the lowest point touched since 1865. Democratic and three-eighths were per bushel for wheat was reached. For a few minutes a year ago the market was, but was otherwise in the last twenty-four hours 60 cent. When it is remembered that the wheat crop of last years ago was a much larger one than this with the Washington statistician counts the country with, the fact, the market seem so remarkable to the very last. There is no doubt that the movement of production was to large part due to the Dutch speculation, though the result in effect the same. It led to a severe shrinking of the operation of other countries grew, to farmers in gardens and to all a low authorized conditions to expect to them. The truth is that about all the theories for gain and big profits in the hands of the bulls are regarded under the rule, and are now "exploded." The harvest in southern Europe have been the result of the effects three days. It is to say that the grain actually represents the [illegible] raised on it. It does to have one of the finest crops of "corn" [illegible] around it with the most [illegible] and [illegible] of grain, but the [illegible] to [illegible] to [illegible] [illegible] [illegible]

THE NEWS FROM ABROAD.

THE STOCK-YARDS STRIKE.

What's the Secret?

What's your notion of Ready-made clothing? Cheap quality? Cheap work? Cheap Everything but price!

Pitch that idea overboard! Our dependable clothing is cheap in nothing but the price. The *making* is equal to ordinary custom work.

The whole *programme* of our business is ruled by the one *purpose*—*Loyalty to customers.*

We will not have sham qualities—that look better than they live—at any price. We analyze the cloth we use; we inspect the sewing our workpeople do; we have no part of the work without a vigilant watch upon it.

Don't we say if you're dissatisfied come back for your money? Why take a risk above our neighbors even after we have your cash? We know you'll think the clothing better than your dollars: that's the secret.

Our guarantee is your protection—absolute and peculiar—after you have parted with your money.

That's the banner we hang out when we ask you to buy our reliable clothing.

Settlement of a Controversy That Seemed Likely to Cause Trouble.

General Manager Talmage's Failure to Attend the Managers' Meeting Caused the Crisis Yesterday, Which Will Last Two Days—Are the Rate Slaughters to Be Made Permanent?—Reports of the Day Brought to Form a Reinforcement Knight Fight.

The most important and farreaching for the managers of the businesses made that the meeting of the Managers' Committee called which occurred in connection with passenger rates for the year, and that would a rate on commercial rates between Chicago, St. Louis, and Kansas City have not been made yet. The committee, which consists of Traffic Managers of the Eight Lines, Trans-Missouri Division of the Burlington, Trans-Missouri Division of the Rock Island, Atlantic Manager Tiffany of the Wabash, and Gallery Manager Merrill of the Lake Shore & the Louisville, met in the Lake Shore building yesterday morning, but owing to the fact that Talmage of the Chicago, Santa Fe & California, and Manager Cornell of the Chicago, Santa Fe & Eastern were not in attendance the meeting was not called to order. The committee did not assemble until 11 o'clock, when Chairman Merrill called the meeting to order. The committee then proceeded to consider the matter of rates between Chicago, St. Louis, and Kansas City, and after a long discussion it was decided to postpone action on the matter until the next meeting of the committee, which will be held in this city on Thursday next. The committee then adjourned.

The failure of Talmage to attend the meeting was due to the fact that he was under the impression that the meeting was to be held on Wednesday instead of Tuesday, and he left for Kansas City on Monday evening. The opposition to Traffic Manager Merrill is thought to be due to the fact that he is the only one of the Eight Lines opposed to the proposition to have the commissioners' board make the traffic rules for the various roads during the years 1896, 1897, and 1898, but that the percentage for the Trans-Missouri Division for the year 1896 should be fixed by arbitration. The plan was first started to accomplish these two objects, but when the committee met it was found that the Rock Island and Burlington, the two Trans-Missouri lines, were opposed to the plan, and the meeting was adjourned without taking any action.

The Southwestern Freight Association.

The managers of the various roads composing the Southwestern traffic association met yesterday morning to make one more effort to bring about the formation of a Southwestern freight rate. Owing to numerous changes and developments the prospects of getting the Southwestern lines in both the Missouri River into the association at the meeting had not been very much encouraging a reasonable settlement of the existing differences are entertained. The feeling optimism for the maintenance of rates was evinced by the fact that the meeting was called together, the Secretary to be back of the Iron Superintendent, the acting to-court meeting, and the attendance of passenger men was not thought necessary. The representatives of the Missouri Pacific and Iron Mountain lines, however, did not arrive in time for the meeting, and it was found that the Texas & Pacific was represented by the Southwestern Agent, and the Kansas City, Fort Scott & Memphis was represented by Vice President Hughes, who was in the city on business connected with the Atlantic & Pacific. The representatives of the Missouri Pacific and Iron Mountain lines arrived in the city during the afternoon, and the meeting was called to order at 4 o'clock. The meeting was held behind closed doors, and no information could be obtained as to what was done. It is understood, however, that the meeting was adjourned to meet in this city on Thursday next.

Southern Minnesota Rates.

Chicago, Minn., Oct. 12.—[Special.]—The Great Northern is making an effort to secure control of the Southern Minnesota road, which runs from Minneapolis to Albert Lea, and it is said that the Great Northern has already secured a majority of the stock. The Southern Minnesota road is controlled by the Chicago, Milwaukee & St. Paul, and it is said that the Great Northern has secured a majority of the stock. The Great Northern has also been trying to get control of the Minneapolis & St. Louis road, which runs from Minneapolis to Albert Lea, but has been unsuccessful in its efforts.

Ohio Grain Export Rate Case.

Columbus, O., Oct. 12.—[Special.]—The Ohio Supreme Court has rendered a decision in the case of the Cleveland, Cincinnati, Chicago & St. Louis Railway, Cleveland City & Lorain road. The case came up on a demurrer to the petition of the Cleveland, Cincinnati, Chicago & St. Louis Railway, Cleveland City & Lorain road, asking for an injunction restraining the Auditor of State from collecting the taxes levied by the Board of Equalization. The case was argued by Attorney-General Sheets, Assistant Attorney-General Ellis, and Judge Dickman for the Auditor of State, and by Judge Ong, Judge Hoadly, and Judge Dickman for the railroad company. The decision was in favor of the railroad company.

Rate Question Settled.

The rate question of the Chicago, Milwaukee & St. Paul Railway Company and the Northern Pacific Railway Company, which has been in dispute for some time, has been settled, and the matter will be dropped.

Southern Pacific Railway Company.

The Southern Pacific Railway Company has also been declared a dividend of 1 per cent on the preferred stock, payable on the 15th inst. to stockholders of record on the 15th inst.

Freight Rates to Be Restored.

A meeting of the Central Freight Association was held yesterday at the Grand Pacific Hotel, at which it was decided to restore the rates which were in force before the cut was made. The meeting was attended by Chairman Caldwell, Secretary Midgley, Commissioner Busch, and Traffic Manager Wilson, of the Lake Shore; Traffic Manager Stevens, of the Michigan Central; Traffic Manager Ingalls, of the Big Four; Traffic Manager Bell, of the Pittsburg, Cincinnati, Chicago & St. Louis; Traffic Manager Hughes, of the Pittsburg, Fort Wayne & Chicago; Traffic Manager Moore, of the Wheeling & Lake Erie; Traffic Manager Kenyon, of the Baltimore & Ohio Southwestern; Traffic Manager Bowers, of the Cincinnati, Hamilton & Dayton; Traffic Manager Ramsey, of the Cincinnati, Indianapolis, St. Louis & Chicago; Traffic Manager Hughes, of the Cincinnati, Indianapolis & Western; Traffic Manager Hughes, of the Cincinnati, Jackson & Mackinaw; Traffic Manager Hughes, of the Cincinnati, Richmond & Muncie; Traffic Manager Hughes, of the Cincinnati, Wabash & Michigan
